**DEPARTMENT OF MINERAL & GEOSCIENCE MALAYSIA  
DEPARTMENT OF ENVIRONMENT MALAYSIA / EIMAS**

to be held at

**INSTITUTE OF QUARRYING MALAYSIA BHD**  
23, Jalan Utama 1/7, Tmn Perindustrian Puchong Utama  
(Puchong Perdana), Section 1, 47100 Puchong, Selangor D.E.

## INTRODUCTION

The 'Environmental Management' component is another important component of the prestigious Quarry Manager's Certificate. Since the quarrying industry has always been acknowledged worldwide as the foundation in the design, construction and manufacture of various innovative structures, infrastructures and amenities for sustainability of society enhancement, this economic sector is thus the vital catalyst and component of any country worldwide striving for industrialized and developed nation status. With globalization and the present economic challenges a reality, the quarrying sector needs to acquire effective sustainable development, environmental-friendly technology and carry out best practices in quarries to stay competitive whilst maintaining the healthy growth momentum of this critical industry. Sustainable Development is progress which meets the needs of the present generation without compromising the ability of future generation to meet their own needs. World leaders are in agreement that accountability, quality assurance complemented by environmental-friendly and occupational safety work practices are an asset in strategic national development. For further business enhancement, the quarrying industry worldwide has to project an efficient and effective environmentally-friendly image locally and globally to achieve favorable economic acceptance by the clients and the public in this new era of sustainability. The ready availability of World Class quarrying leaders, experts and workforce conversant in environment matters would be a great advantage to the quarrying industry since the experienced human capital can be easily mobilised overseas for any impending integrated problem solving challenges worldwide. Some of the important topics incorporated in this important and practical IQM-QMC Environmental Management course include 'Environmental Management Standards and Legislation', 'Water Resource Protection', 'Air Quality Monitoring and Control', 'Effective Traffic Management', 'Mitigation of Visual Impacts', 'Environmental Noise and Vibrations', 'Waste Management', 'Efficient Soil Erosion Management' and 'Recycling' towards effective Sustainable Development. Aspiring Quarry Managers trained in Environmental Management would be a great asset towards further and sustainable economic progress of this industrial sector worldwide.

## WHO SHOULD ATTEND

This course is tailored to meet the needs of Managers, Engineers, Supervisors and other employees who wish to gain first-hand knowledge of Environmental Management in the Mining and Quarrying Sector

## TRAINING METHODOLOGY

Course methods include combination of :

- Lectures
- Group Discussions
- Presentations
- Training Videos
- Visit to EiMAS

## COURSE CONTENT

1. Air Quality Management and Dust Pollution Control
2. Water Quality Management
3. Visual Environmental Impacts of Quarrying
4. Blasting Environmental Impact
5. Effects of Environmental Noise
6. Soil Erosion Management
7. Effective Quarry Site Traffic Management
8. Waste Management
9. Best Practices : Model Quarry
10. Quarry Rehabilitation

## BIODATA OF SPEAKERS

1. **Hj Mustapha Bin Mohd Lip, FIQ**  
Deputy Director General (Corporate)  
Department of Mineral & Geoscience Malaysia  
Academic Qualification  
B.Sc (Hon) (Mining) -  
University of New South Wales, Australia  
M.Sc (Environment Resources) - Salford University, UK
2. **Dato' Prof Dr Ir Eric Gob**  
Professor in Engineering at  
University of Science Malaysia (USM)  
Academic Qualification  
B.Sc (Hons) - University of Leeds, UK  
M.Sc - University of Leeds, UK  
PhD - University of Queensland, Australia
3. **Ir Dr Mior Termizi Mohd Yusof**  
General Manager, Pulai Mining Sdn Bhd  
Academic Qualification  
Diploma in Petroleum Engineering -  
Universiti Technology Malaysia  
B.Sc (Hons) Mining Engineering -  
Camborne School of Mines  
M.Sc (Hons) Mineral Economics -  
University of Science Malaysia (USM)  
M.Sc (Hons) Mining Engineering - Exeter  
PhD Geotechnical Engineering -  
University of Science Malaysia (USM)
4. **En Izhar Abadi B Ibrahim Rais**  
Senior Research Officer, Mineral Research Centre,  
Department of Mineral & Geoscience Malaysia, Ipoh  
Academic Qualification  
B.Eng Mineral Resources -  
University of Science Malaysia (USM)  
M.Sc Mineral Resources -  
University of Science Malaysia (USM)
